

## WHO IS HEALTH CARE VISIONS?

### *An Experienced Strategic Partner*

Health Care Visions, Ltd. is a nationally renowned consulting firm offering specialized expertise and services to hospitals to identify and evaluate existing or emerging opportunities in cardiovascular and peripheral vascular services.

Health Care Visions, Ltd.'s staff consists of Master's prepared clinical and business consultants who possess a tremendous amount of experience in managing successful cardiovascular and peripheral vascular programs for hospitals ranging from small institutions to some of the country's largest health care systems.

Our consultants are well versed in the latest, most advanced technologies and best medical practices in this rapidly evolving service category. We have provided assistance to over 85 hospitals, with assignments ranging from short, time-limited, task specific engagements to long-term strategic partnerships.

We welcome the opportunity to discuss your needs and explore solutions that can strengthen your existing programs or assist with the implementation of new services.

## Critical Care and Cardiovascular Remote Education Sessions

  
*Health Care Visions*

Health Care Visions, Ltd. (HCV) offers easy to access, affordable, remote education sessions without leaving your hospital campus. Education content includes critical care and cardiovascular topics. We provide

educational programs that support and enable staff to contribute effectively to the care and recovery of these targeted patient populations.

## Approach

The hospital receives a live audio presentation from Masters prepared clinical nurse experts while viewing PowerPoint presentations. The programs are prepared to meet established standards and can provide participants with continuing education requirements.

Health Care Visions, Ltd. consultants will conduct a pre presentation phone call with the hospital leadership and/or educators to discuss specific needs. We can then customize the didactic sessions to meet the hospital's needs.

Dates and times of sessions will be scheduled to accommodate optimal participation and maximize staff attendance.

## Program Benefits

- ♥ Cost effective method to enhance professional staff development
- ♥ Unlimited attendees at each session
- ♥ Flexible scheduling and repeat sessions available
- ♥ No minimum number of education sessions is required for purchase (can purchase one session, several or all)
- ♥ Hospital incurs no travel expenses for the presenter or hospital personnel
- ♥ Hospital receives copies of the PowerPoint presentations to keep for ongoing/future use
- ♥ All required materials are provided by HCV for the facility to apply for continuing education units

### On-Site Education Sessions

are also available if desired.
